**CAN'T HELP
WONDERING**

To the Editor:

I can't help wondering about the cloak and dagger report that a minister of the gospel made over 578 radio stations the morning of Mar. 18, to the effect that a defector from the Soviet Union's KGB knows of about 150 KGB agents who have infiltrated our CIA.

HOW DOES HE KNOW that defector is not part of a trap?

How does he know our CIA didn't know all about it and had a trap all ready to spring when this minister let the cat out of the bag and spoiled everything?

WHEN A minister of the gospel starts tinkering with the secrets of our highly complicated CIA, how does he know he will not do more harm than Alger Hiss ever did?

**Wants Investigation
To The Post-Intelligencer:**

In view of the disclosures made by the Russian defector, Goleniewski, that there are Red agents operating in the State Department and the CIA, I urge all Americans to write to their congressmen and senators to launch an all-out and thorough investigation into the activities of these departments immediately.

Congressman John M. Ashbrook has introduced a bill in this respect. Let us all support Mr. Ashbrook's bill and take this opportunity to let our voice be heard. This is very important. It is high time for a big "house cleaning" in these departments.
